Marshall Sahlins (b. 1930) is an American anthropologist who played a major role in the development of anthropological theory in the second half of the twentieth century. Over a sixty-year career, he and his colleagues synthesized trends in evolutionary, Marxist, and ecological anthropology, moving them into mainstream thought.

History Of Anthropological Thought

In the early years of anthropology, Darwinism had a strong impact on theory. The prevailing view was that culture generally develops (or evolves) in a uniform and pro-gressive manner, just as Darwin argued species did. It was thought that most societies pass through the same series of stages, to arrive
