Lights Out A Cyberattack A

" Lights Out is a timely
warning about the
vulnerability of
America to a massive
cyberattack that would
cripple all we take for
granted - electricity,
communication,
transportation. This is
not science fiction.

is. Ted Koppel does a great job educating us on the dangers of a cyber attack on the electric grid. He uses an academic approach to the story telling that does not over hype this threat, but pays close attention to the technical dangers. Good Book!
