How Robots Are Saving Humans From Doing Dangerous Jobs ...

One of the best things about robots is their ability to do jobs that would be just plain dangerous for people. Not only can robots operate in environments where humans can't, but they can also take on challenges that are hazardous. Robots can explore beneath the sea, investigate volcanoes, and much more. In many cases, however, they are simply taking over jobs that are tedious and have a low margin for error.

Dangerous Robot Jobs | RIA Robotics Blog

The upgraded ATLAS robot, built by Alphabet-owned Boston Dynamics, blows the others out of the water. It's smaller, sturdier and more nimble than any humanoid robot thrown into real-world settings....

9 Surprising Places Robots Will Soon Turn Up | Kiplinger

Here are 5 super-dangerous jobs that robots can do safely. Giving these jobs to a robot will immediately improve the safety of the human workers in your business. 1. Lifting very heavy (and slightly heavy) objects. Robots are often used to lift very heavy objects. Want your robot to lift a whole car? No problem, there are robots that can do that easily. These lifting tasks wouldn't just be dangerous for humans, they would be impossible (unless you've hired the Incredible Hulk to do ...
